

Adding Observations and Adverse Events

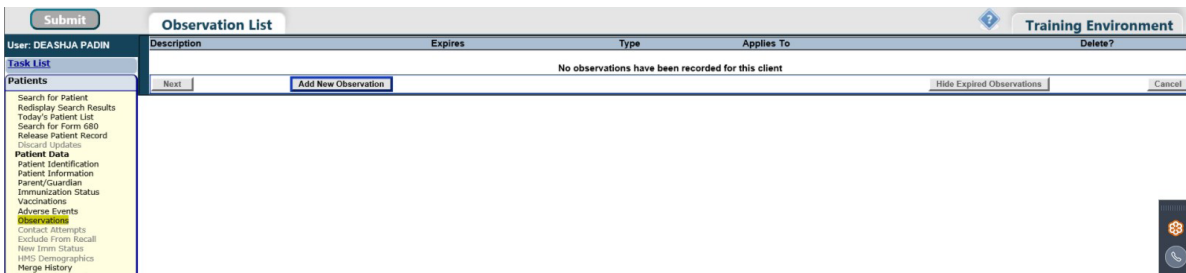

Florida SHOTS uses “**Observations**” to document contraindications and precautions to receiving certain vaccinations. An observation is also required to be recorded in order to issue a vaccine exemption - Part C on a DH680 form. In addition, users can add risk factors as observations to indicate non-routine administration of vaccines. When recorded, these observations will influence patient immunization schedules, forecasting, and Reminder/Recall reports.

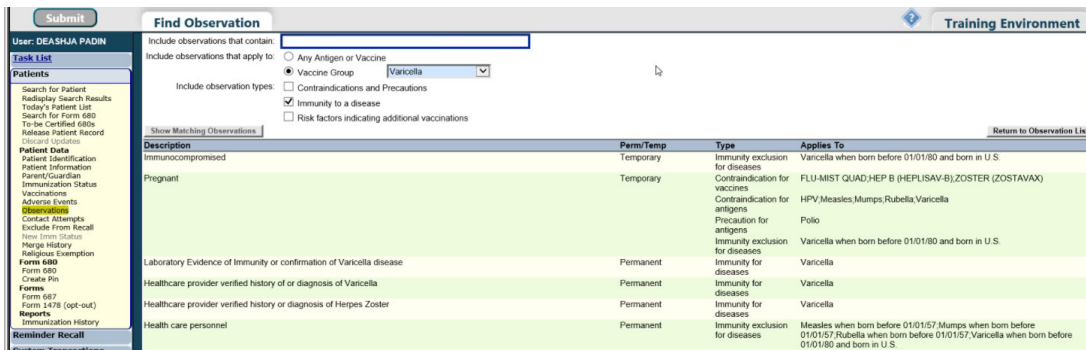

The following describes how to document commonly used observations in the patient record. First complete the “**Patient Search**” and load the patient’s record.

ADDING HISTORY OF VARICELLA (CHICKENPOX) DISEASE:

1. Click the “**Observations**” menu item on the left to open the “**Observation List**” page. Select “**Add New Observation**” button.

2. Select Varicella for “**Vaccine Group**” and “**Immunity to a disease**” from “**Include observation types.**” Click on “**Show Matching Observations.**”

3. Select “**Healthcare provider verified history of or diagnosis of Varicella**” or “**Laboratory Evidence of Immunity**” from the “**Description**” list, and you will be prompted to enter the “**Date identified**” and “**Disease year.**” Click the “**Next**” button in the lower left corner.

- Click the **“Submit”** button in the upper left corner to save.

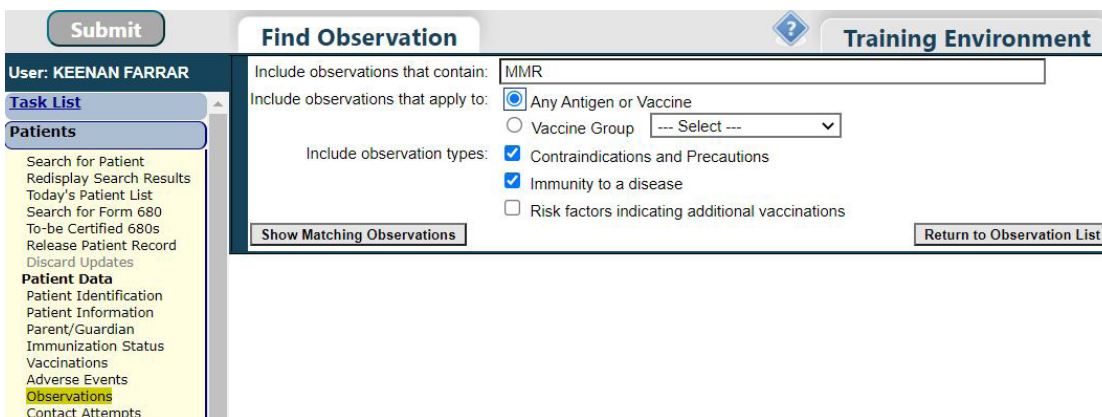

ADDING OBSERVATIONS:

- Open the patient record, select the **“Observations”** menu option to open the **“Observation List”** page. Click on the **“Add New Observation”** button.

- Enter the vaccine that the exemption is being issued for in the **“Include observations that contain”** field or select it in the **“Vaccine Group”** from **“Include observation that apply to”**. Click on **“Show Matching Observations”**.

3. Select the observation from “Description” list.

Include observations that contain:

Include observations that apply to: Any Antigen or Vaccine
 Vaccine Group --- Select ---

Include observation types: Contraindications and Precautions
 Immunity to a disease
 Risk factors indicating additional vaccinations

Description	Perm/Temp	Type	Applies To
Adverse reaction to vaccine component	Permanent	Contraindication for All Vaccines	COVID-19;Cholera;Dengue;Diphtheria;Ebola;HPV;HepA;HepB;Hib;Influenza;Japanese Encephalitis;Measles;Meningococcal;Meningococcal B;Mumps;Pertussis;Pneumococcal;Polio;Rabies;Rotavirus;Rubella;Smallpox;Tetanus;Typhoid;Varicella;Yellow Fever;Zoster
Chemotherapy	Permanent	Contraindication for antigens	Hib when 6 weeks or older and less than 5 years;Measles;Mumps;Rubella;Varicella
Cytomegalovirus IGIV	Temporary	Contraindication for antigens	Measles;Mumps;Rubella;Varicella
Family history of altered immunocompetence	Permanent	Contraindication for antigens	Measles;Mumps;Rubella;Varicella
Generalized malignant neoplasm	Permanent	Contraindication for vaccines	FLU-MIST QUAD,TYPHOID PO
HIV/AIDS - severely immunocompromised	Permanent	Contraindication for vaccines	Dengue;Measles;Mumps;Rubella;Varicella;Yellow Fever
Health care personnel	Permanent	Indication for risk schedules	FLU-MIST QUAD;MENACTRA when 2 months or older and less than 2 years
		Immunity exclusion for diseases	Dengue;Measles;Mumps;Rubella;Varicella;Yellow Fever
			HepB risk 3-dose series when 19 years or older;HepB risk Twinrix 3 Dose Series when 19 years or older;HepB risk Twinrix 4-dose series when 19 years or older;HepB-CpG risk 2-dose series when 19 years or older;Measles risk 2-dose series when 18 years or older;Measles when born before 01/01/57;Mumps when born before 01/01/57;Rubella when born before 01/01/57;Varicella when born before 01/01/60 and born in U.S.

NOTE: The vaccine needs to be recorded in the patient record in order to be allowed to add an observation for it. This message will alert user if this is missing:

Additionally, certain permanent observations will require an adverse event to be documented for the specific vaccine. This message will alert user if missing:

- You will be prompted to enter the date of when the observation was identified in the **“Date identified”** field with optional comments. Click on the **“Next”** button to proceed.

Submit **Add Observation** **Training Environment**
